

A silhouette of a person standing in a stone archway, pointing towards the wall. The scene is set in a stone building with multiple arches. The person is on the left, and the wall they are pointing at is on the right. The lighting is dramatic, with strong shadows and highlights from the arches.

ARCH is a work that brings together people, place and art. Concerned with journeys, emotional and life journeys as well as actual physical journeys, it draws upon the richness and diversity of life within a given location.

# ALL R C HALLOWS

All Hallows ARCH is an innovative project that uses art and creativity to engage with the members of the church and community project and reach out to the wider community. ARCH is fundamentally focused on people and place, and therefore the All Hallows project will look at linking the different groups and individuals that use the building to further share resources, experiences and skills in new and creative ways.
